GSE319536_BC18 | author comparison is qualitative, not segmentation accuracy

v3.1 (project coordinates)

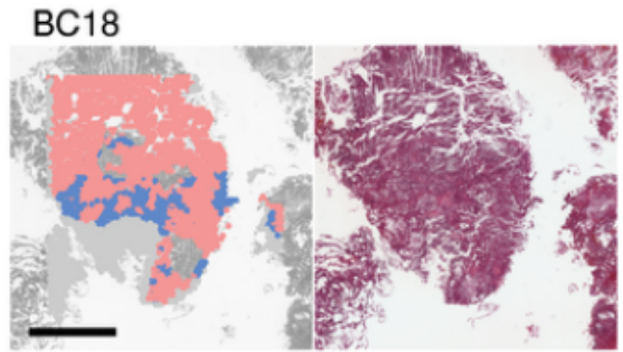

Project inside
Project outside

v3.2 (same project coordinates)

Inside lesion ROI (computational)
Extent unresolved (not outside)

Published S1 annotation + H&E
Separate figure scale; NOT registered barcode labels

Tumor Cell
Tumor Stroma
Immune Cell
Necrosis
TLS/TIL/LA
Vessel
Urothelium
Normal Stroma
Muscle
Others

S1 central/lower blue Tumor Stroma and salmon Tumor Cell overlap qualitatively with former outside. D8 contextual extension is calibrated to coexistence, not pixel-transferred truth. Gray Others remain unassigned; no whole-section-inside claim.
