GSE171351_B1 | SOURCE_G, k=10 | true physical coordinates (pitch)
Hot/cold = local statistic of neighbors; center score need not be high

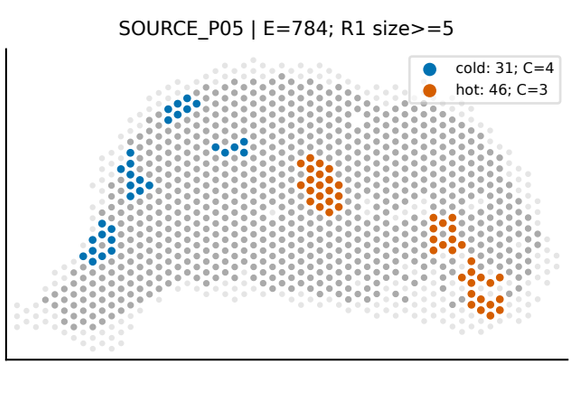

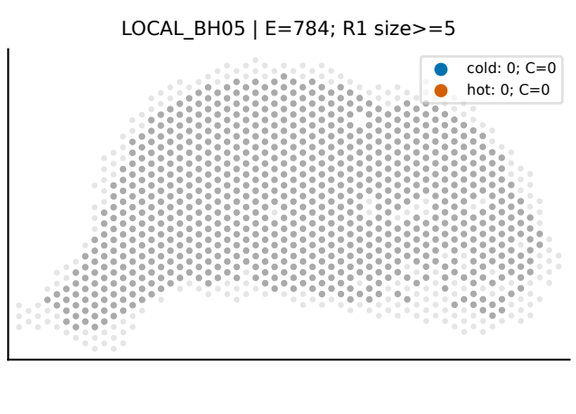

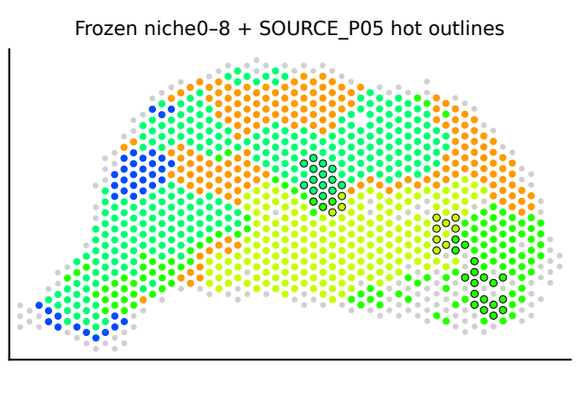

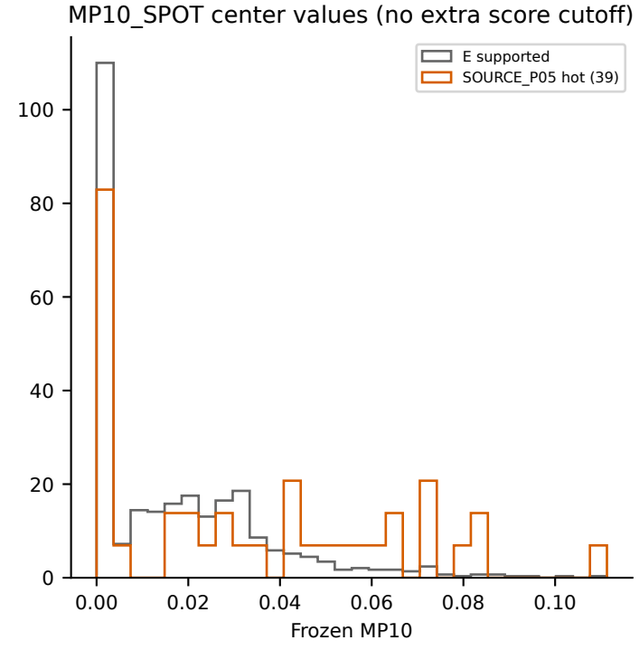

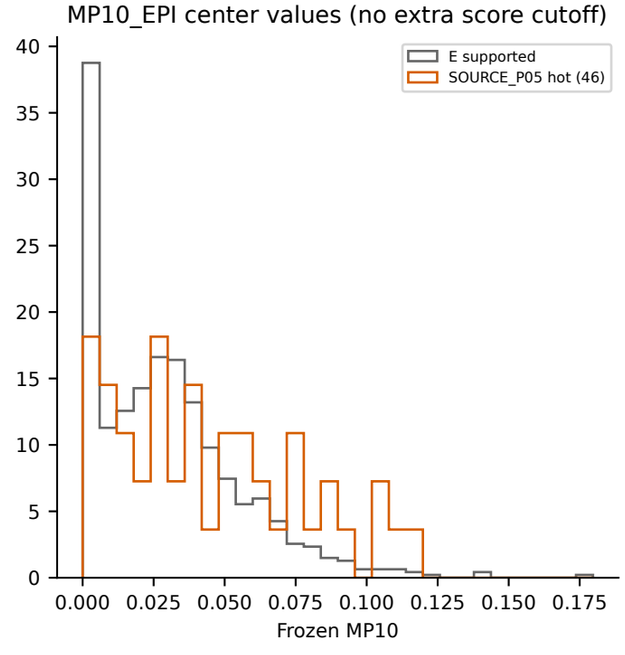

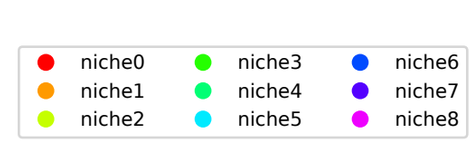

Orange = hot; blue = cold
Grey = unavailable / tissue background
SOURCE_P05: native P < .05
LOCAL_BH05: two-sided local BH q < .05
Local cutoffs are not unit-test stars.
Distances never cross tissue components.
