CanDis_2026_Sample9 | distances CONDITIONAL ON CANDIDATE ROI; no edge => no margin/core

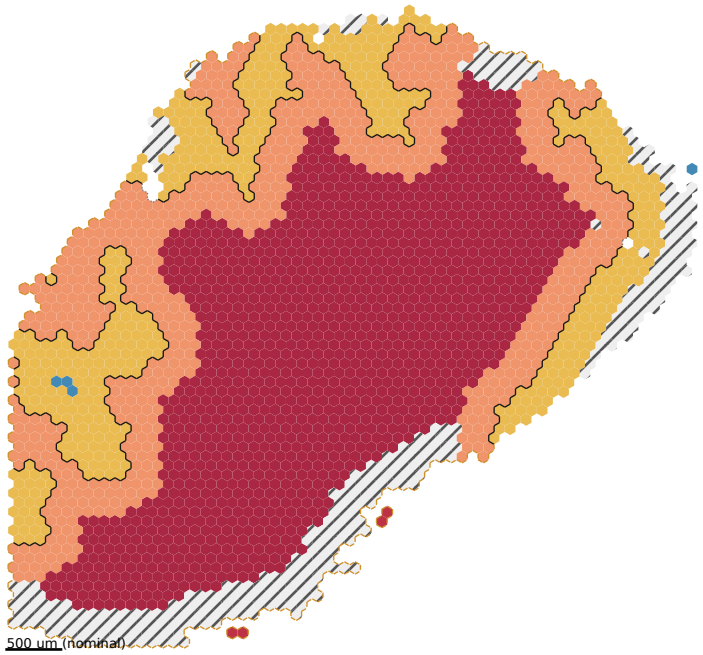

Half-width 100 um | same new geometry

Half-width 200 um | same new geometry

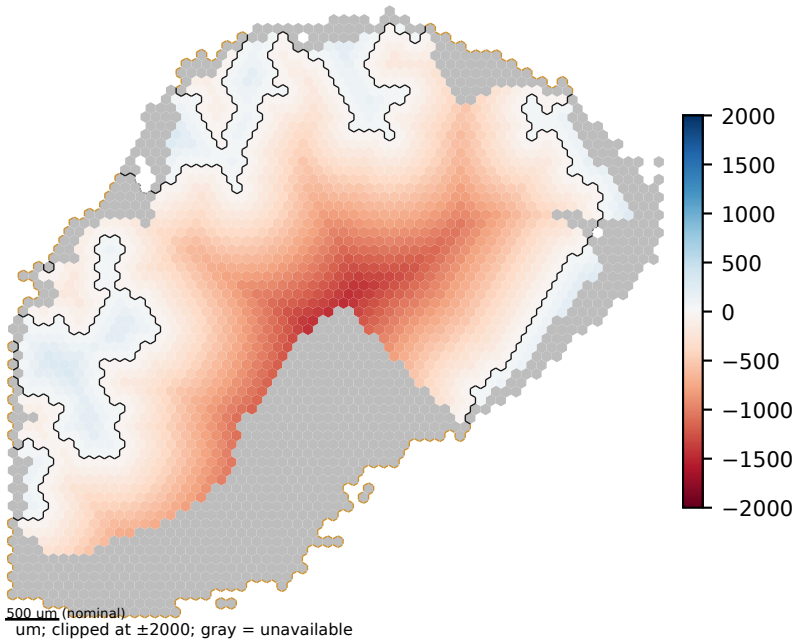

Half-width 300 um | same new geometry

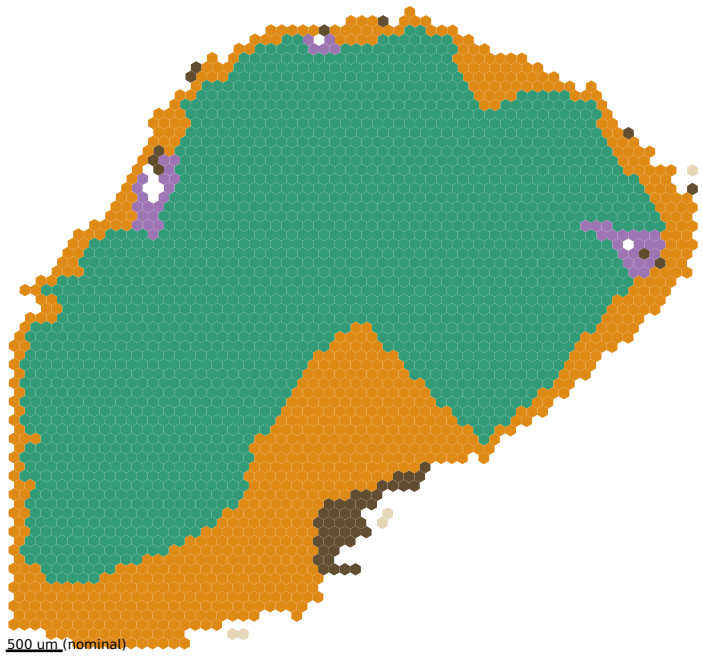

Interior (>w confirmed)
Inner margin
Outer margin
Outside (>w confirmed)
Inside; outer edge unobserved
Outside; no usable lesion edge
Band unresolved

Exact signed distance; red inside / blue outside

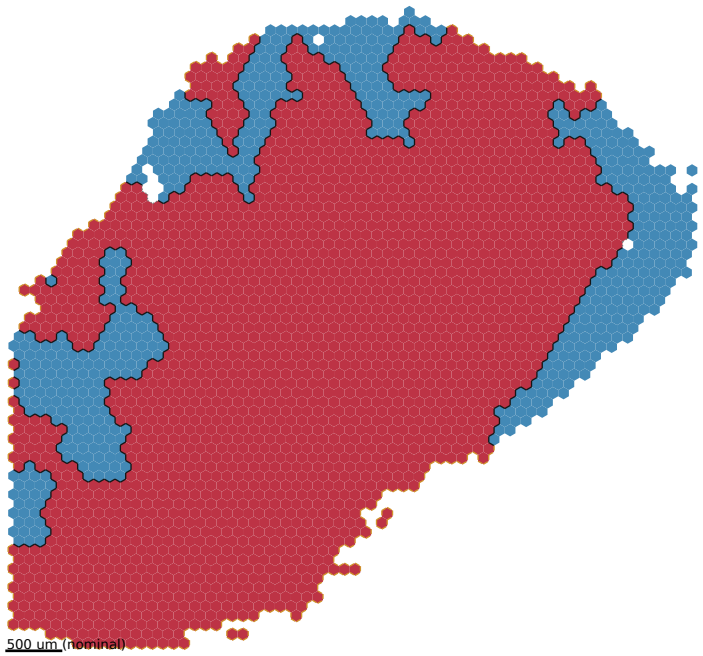

um; clipped at ±2000; gray = unavailable

Exact-distance reliability

estimable
outer_edge_not_observed
path_occluded
outer_sampling_or_tissue_truncation
unresolved_internal_gap

Position retained when no outer edge is observed

Candidate inside
Candidate outside
