CanDis_2026_Sample10 | raw spot Pearson | full observed candidate-distance range (no clipping)

Classical Mono / E2F TARGETS: descriptive full-range delta r=0.432; each group retains its full observed range.
SMC / E2F TARGETS: descriptive full-range delta r=-0.397; each group retains its full observed range.
Common-support formal comparison is separate in the 3-page main report. Pearson P does not correct spatial dependence.
