CanDis_2026_Sample7 | raw spot Pearson | full observed candidate-distance range (no clipping)

Classical Mono / GLYCOLYSIS: descriptive full-range delta r=0.389; each group retains its full observed range.
Pericyte / Budden S1P RESPONSE 18: descriptive full-range delta r=-0.342; each group retains its full observed range.
Common-support formal comparison is separate in the 3-page main report. Pearson P does not correct spatial dependence.
