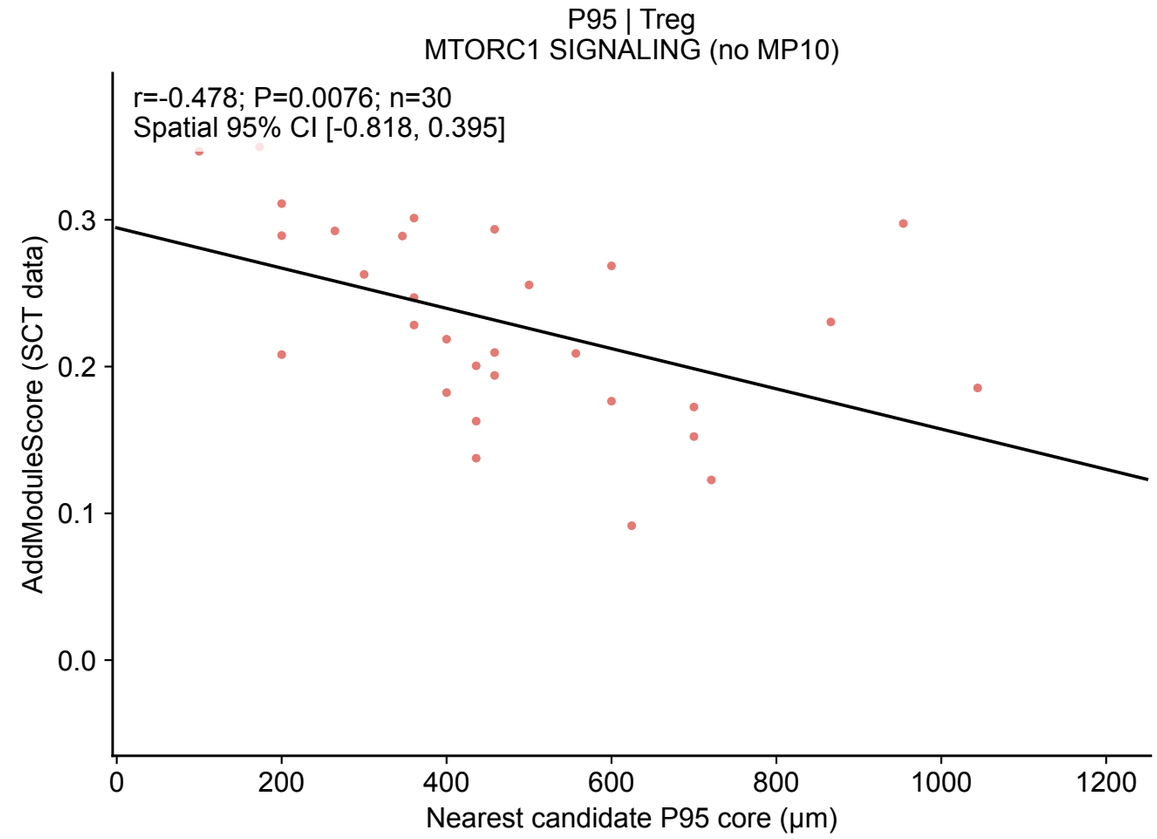
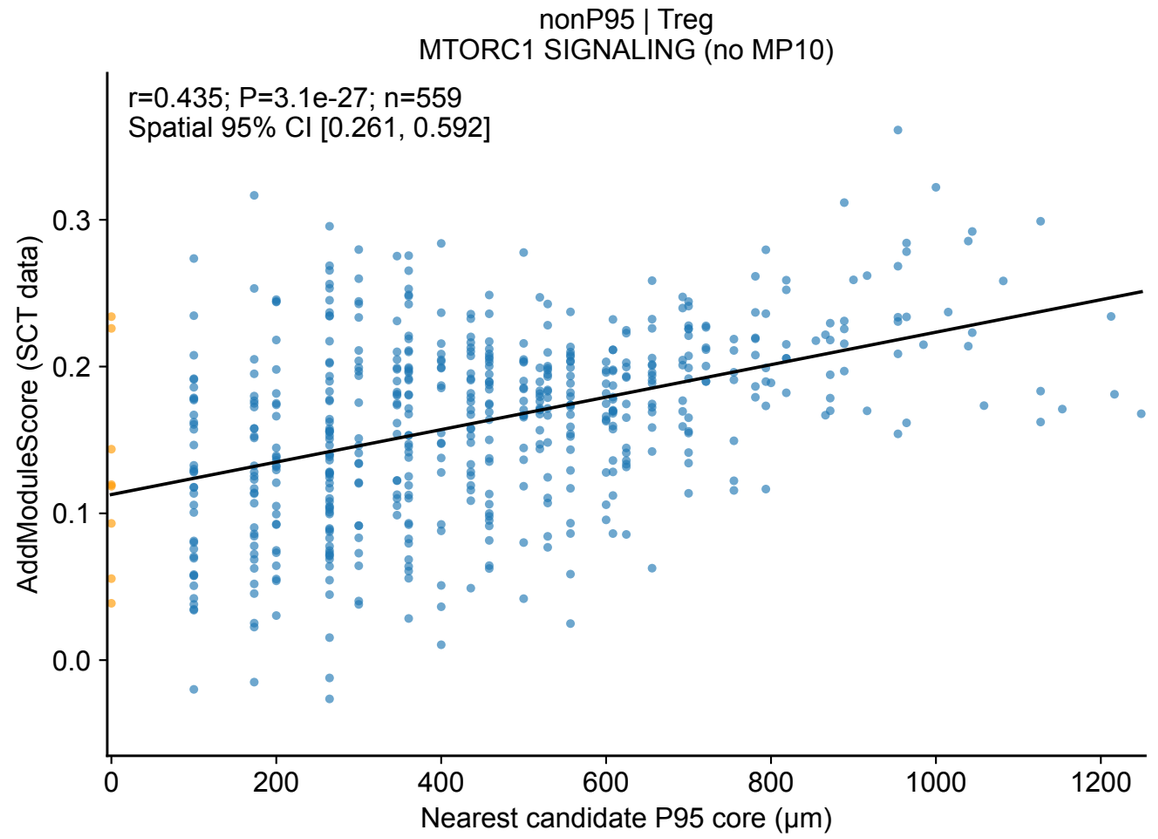
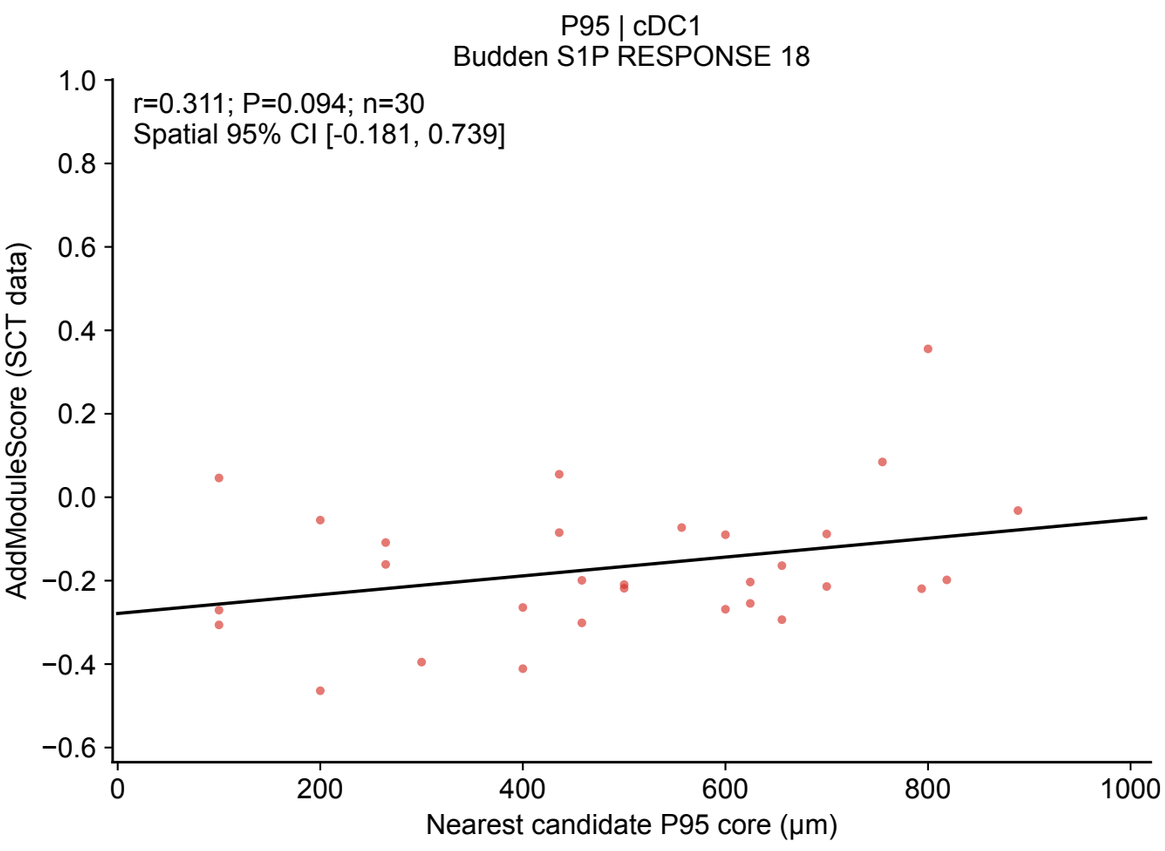
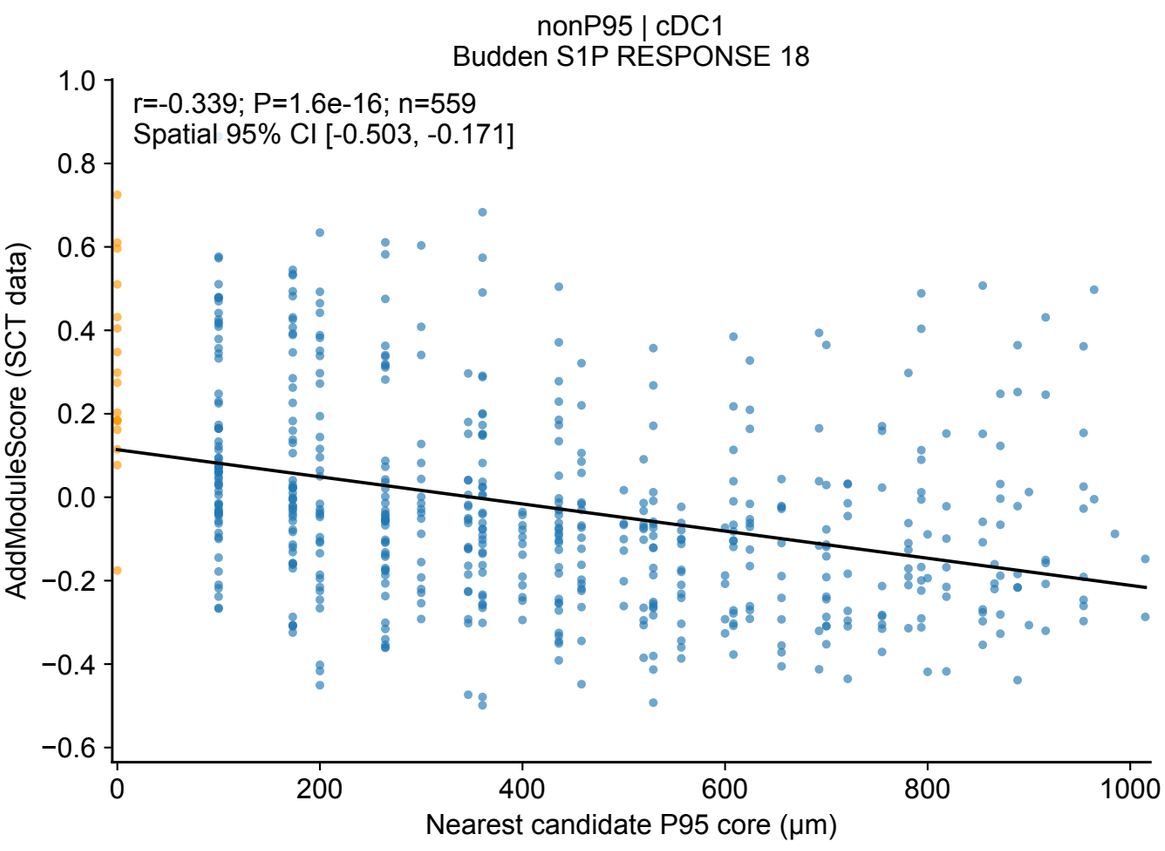
NPJ_sample1 | raw spot Pearson | full observed candidate-distance range (no clipping)









Treg / MTORC1 SIGNALING (no MP10): descriptive full-range delta r=-0.913; each group retains its full observed range.
cDC1 / Budden S1P RESPONSE 18: descriptive full-range delta r=0.650; each group retains its full observed range.
Common-support formal comparison is separate in the 3-page main report. Pearson P does not correct spatial dependence.
