NPJ_sample4 | raw spot Pearson | full observed candidate-distance range (no clipping)

Classical Mono / GLYCOLYSIS: descriptive full-range delta r=0.607; each group retains its full observed range.
SPP1 TAM / Budden TNF EMT RESPONSE 15: descriptive full-range delta r=-0.639; each group retains its full observed range.
Common-support formal comparison is separate in the 3-page main report. Pearson P does not correct spatial dependence.
